25X1D

2. In the expectation that additional missions may be required in the coming weeks and in order to be able to respond promptly to urgent requirements as they arise, it is requested that the Special Group approve three additional missions which would allow for coverage of the three widely separated areas of interest. It is further proposed that the exercise of these approvals be left to the discretion of the DCI who, however, would notify the members of the Special Group at least two days in advance of the operations to permit a consideration of any new aspects which meanwhile may have arisen.
